Internal Shortage Policy

This policy explains important aspects for Internal Shortage Policy

In case of an internal shortage in any scrip in the same settlement where both buyer & seller are clients of Progressive and seller does not deliver shares for his pay-in obligation.

The short delivering client is provisionally debited by an amount equivalent to 120% of closing rate of day prior to pay-in / pay-out day.

The securities delivered short are purchased from the market on Auction day and the purchase consideration along with auction penalty is debited to the short delivering seller client along with the reversal entry of provisional amount debited earlier.

If securities cannot be purchased from market due to any force majeure condition, then all shortages not bought-in are deemed to be closed out and short delivering seller client is debited as under:
