Policy on Margin by Nangalia Stock Broking Pvt Ltd

Nangalia Stock Broking Pvt Ltd (NSB), would be keeping securities as margin over client's position and would hold the shares and margin of the client till debit balance is not cleared. NSB will hold margins in tune of 30% to 300% as per quality of scripts, as per debit balance of the client and as per exposure of the client in particular script.

NSB has the right to call for margin before purchase or sale of any securities by any of its clients. Margin calculations and demand can defer script to script and client to client.

The parameters for calculating margin requirement can defer from script to script and client to client.

01: Category of the script in which the client trades in.

02: Daily volume in the script on Both Exchanges (NSE / BSE)

03: Clients relation with NSB, Payment cycle of the client where in how prompt is he in making payment against his/her debit balance. Corporation of the client would also be taken into consideration.

04: NSB has the rights to say NO / deny on any particular stock if NSB is not comfortable with the client for any technical reason.

05: NSB has the rights to settle client's dues by selling shares at any given point of time, if the stock price falls drastically or if the client is not cooperative with NSB. The sale of shares can happen even with verbal notice of few minutes to the client.

06: To settle dues NSB has the right to sell margin shares also in tune to recover its debit balance of the client. After recovering its debit balance, NSB would transfer remaining shares of purchase or margin shares to clients d-mat account after payout. NSB would also transfer remaining credit balance via neft or rtgs to client's bank account.
